

EOne Academy Course List

Navigation

JDE Foundations

- ERP History
- JD Edwards History
- Speaking JDE
- A Decade of JDE with Oracle
- How Does Oracle View the Future of the Cloud

JDE Fundamentals

- Rules of JDE
- Account Structure
- JDE Environment
- Address Book
- User Defined Codes (UDCs)
- Processing Options
- Configure Next Numbers
- Interpret Errors
- Create New Application Version and Add to Menu

JDE Navigation 9.2

- Menu Navigation
- Interface Features
- The Carousel
- Favorites
- Recent Reports

JDE Navigation 9.2 – Contd.

- Work with Applications
- Customize the Grid
- Data Browser
- Work with Records
- Collaborate Tool
- Manage User Defined Objects
- Advanced Queries UDO
- Create Pages with Page Composer
- E1 Pages 9.2 UX: Create Direct Links with Page Composer
- E1 Pages 9.2 UX: Create Process Flows Using Designer Pane
- E1 Pages 9.2 UX: Create a UX Dynamic Page with Watchlists and Springboard
- Watchlists UDO
- Attach Media Objects
- CaféOne: Composite Application Framework UDO 9.2
- Pages UDO
- Export and Import Grid Data

EnterpriseOne Net Change

- Net Change 9.1.3 Tools Overview
- Net Change 9.1.3 One View Enhancements

EnterpriseOne Net Change – Contd.

- Net Change 9.1.5 Menu Navigation Overview
- Net Change 9.1.5 The Carousel
- Net Change 9.1.5 Favorites
- Net Change 9.1.5 Grid Enhancements
- What's New in 9.2

Citizen Developer

Citizen Developer Navigation

- Menu Navigation
- Preferences
- Favorites
- Carousel
- Recent Reports
- Breadcrumbs
- Work with Application
- Work with Reports
- Export and Import Grid Data

Work with User Defined Objects (UDOs)

- UDOs Overview
- Grid Customization
- Rename Grid Headers

Work with UDO's – Contd.

- List View
- Form Personalization
- Form Extensions
- Rename Form, Row, and Report Exits
- Grid Summarization
- Advanced Queries
- Watchlists
- Composed Pages
- Composed Pages: Designer Pane
- Classic Pages
- CaféOne

Manage UDOs

- Images
- Create E1 Search Groups
- Task Index Builds (Springboard)
- Manage Security for UDOs
- Manage UDOs with Web Object Management Workbench (OMW)
- Object Usage Tracker
- Orchestrator Overview

UX One

- UX One Interface Overview
- Create UX One Roles
- The Page Composer
- Add Charts to a Composed Page
- Add a Designer Pane
- Add One View Reports to UX One Pages
- Add Watchlists to UX One Pages
- Add a Springboard to UX One Pages
- Add URLs to a Composed Page
- Add a Classic Page to a Composed Page
- Create CaféOne Layouts
- UDO Management

UX One Roles

- Manage Roles and Pre-Built UX One Pages
- Assign Roles to Environments
- General Accounting Manager
- Accounts Payable Manager
- Accounts Receivable Manager
- Plant Manager
- Production Manager
- Asset Manager
- Customer Service Manager
- Inventory Control Manager
- Shipping Supervisor
- Payroll Manager

Orchestrator Studio

Get Started with the Orchestrator Studio

- Orchestrator – About this Course
- Orchestrator Overview
- Navigate the Orchestrator Studio Homepage
- Run Orchestrations Overview
- Design and Run Orchestrations
- Transformations – Map Orchestration Inputs
- Launch Orchestrations from a Composed Page
- Launch Orchestration from EnterpriseOne – Overview
- Launch Orchestrations from an Application

Orchestrator Service Requests

- Service Requests Overview
- Create a Form Request with Process Recorder
- Create an Orchestration and Add a Form Request
- Create a Message Request
- Create an Orchestration and Add Components
- Create a Data Request
- Create Data Request with Aggregation
- Create a Watchlist Request
- Connector Requests Overview
- Create a Connection
- Create an FTP Connector Request
- Create an FTP Connector to Create Sales Orders from CSV
- Create a Connector Request
- Add a REST Connector to an Orchestration
- Create a Report Request
- Add a Report Request to an Orchestration
- Create a Custom Request

Additional Orchestrator Step Components

- Attachments Overview
- Create and Manage Text Attachments
- Work with File Attachments
- Create Rules
- Cross Ref and Whitelists Overview
- Cross References
- Create a Whitelist Component

Additional Orchestrator Step Components – Contd.

- Create Schedules

Orchestrator Tools

- Tools Menu Overview
- Use the Scheduler
- Import/Export
- Orchestrator Monitor

Orchestrator Notifications

- Notifications Overview
- Create a Simple Notification
- Create a Watchlist Notification
- Assign Notifications to Users

Logic Extensions in the Orchestrator Studio

- Logic Extensions Overview
- Navigate the Logic Extension Page
- Create Data Structures and Variables
- Create Logic
- Test Logic Extensions

Workflows in the Orchestrator Studio

- Workflows Overview
- Navigate Workflows
- Workflows Create Data Structures and Tasks
- Workflows – Configure Tasks
- Workflows – Task Menu
- Workflows – Transitions and Conditions

Release 22 Enhancements

- Files as Orchestrations Input and Output
- Manage Report Output in Orchestrations
- Creating External Forms from EnterpriseOne Web Client
- Launch Orchestrations from Composed EnterpriseOne Page
- Form Extension Improvements

Release 23 Enhancements

- Logic Extensions: Aggregation Support
- Data Set Processing for Logic Extensions
- Nested Logic Extension Assertions
- Map Inputs from a CSV File
- Call an Orchestration from a Workflow

Release 23 Enhancements – Contd.

Form Control Extensions
File Selector for Form Extension PT1
File Selector for Form Extension PT2
Page Composer Enhancements

Release 24 Enhancements

Task Tracking
Notifications Reminders

Release 22

Fixed Assets Reports
Fixed Assets Integrity Reports
Fixed Assets Transfer

Job Cost

Job Cost Overview
Change Management Overview
Job Master Records
Cost Code Structure and Chart
Types
Budgets
Job Status Inquiry

Job Cost – Contd.

- Job Progress Management
- Performance Based Labor
- Forecasting
- Profit Recognition
- Draws

Organization Setup and Finance

- Organization Setup and Financial Overview
- Organization Setup
- Category Codes Setup
- Fiscal Date Patterns
- Bank Account Setup
- GL Class Codes

Revenue Recognition

- Revenue Recognition Setup
- Revenue Recognition Process
- Additional Methods
- Revenue Recognition Functional Overview

Contract and Service Billing

- Contract Billing Overview
- Contrast of Contract Billing and Service Billing
- Address Book, Customer Master, and Job Information
- Contracts
- Contract Billing Lines
- Contract Billing Workfile
- Contract Invoices Process
- Service Billing Overview
- Service Billing Setup
- Service Billing AAls
- Service Billing Additional Tables
- Service Billing Workfile Transactions Overview
- Service Billing Workfile Concept
- Recognize Revenue for Service Billing and Contract Billing
- Service Billing Invoices Process

Advanced Cost Accounting

- Advanced Cost Accounting Overview
- Advanced Cost Accounting Setup
- Cost Analyzer
- Activity Based Costing Reporting

Expense Management

- Expense Management Overview
- Expense Management Setup
- Group and Employee Profiles
- Expense Reports

Expense Management - Contd.

- Auditing
- Reimbursement
- Reporting
- Mobile Expense Demo
- Mobile Expense Entry
- Mobile Expense Approvals

Job Cost: Advanced Job Forecasting

- Advanced Job Forecasting Overview
- Formulas and Methods of Computation Setup
- Build a Job Forecast

Lease Accounting

- Lease Accounting Overview
- Lease Accounting Setup
- Lease Accounting AAls Setup
- Lease Accounting Bill Code Setup
- Create an Asset Master Record in Lease Accounting
- Create a Unit Master Record in Lease Accounting
- Create and Review a Property Lease
- Create and Review a Non-Property Lease
- Enter Lease Clause Information
- Enter Manual Billing
- Review and Post Manual Billing
- Review and Post Manual Billing
- Create, Review, and Delete an Amortization Schedule
- Create and Review Commencement Journal Entries
- Create, Review, and Post End of Month Balance Sheet Journal Entries
- Delete or Void a Lease Accounting Batch
- Change a Lease Term
- Remeasure and Post a Lease
- Enter a Lease Termination
- Generate a Termination Entry
- Review Lease Accounting Inquiries
- Run Lease Accounting Reports
- Generate Recurring Billing

Joint Venture Management

- Joint Venture Overview
- Address Book – Supplier Master
- Entering Joint Venture Master Records

Joint Venture Management – Contd.

- Joint Venture Legal Entities
- Create and Approve Approval Lists
- Entering AAls for Joint Venture Management
- Distributable Accounts for Joint Ventures
- Create a Division of Interest Distribution Ledger Records
- Business Unit Attributes
- Account Groups
- Overhead Rules
- Set Operational Status
- Cash Call Processing
- Assign Draw Create Journal Entries Program
- Distribution Transaction Processing Reports
- Reviewing and Recalculating Overhead Amounts
- Process Overhead Calculation and Journal Entries
- Create Journal Entry and Voucher Transactions
- Joint Venture Distribution Documents
- Generate Distribution Ledgers Program
- Review Account Distribution Summary and Detail
- Joint Venture Inquiries
- Joint Venture Hierarchy

Distribution

Procurement

- Procurement Overview
- Order Activity Rules
- Procurement AAls
- Supplier Information
- Supplier Item
- Supplier Templates
- Line Types
- Requisitions
- Quotes
- Blanket Orders
- Enter Purchase Order
- Purchase Order Generator Approvals
- Purchase Order Printing
- Enter Subcontract Purchase Orders
- Change Order Process

Procurement – Contd.

- Receiving, Reversals, and Receipt Routing
- Tolerance
- Landed Cost
- Process Rebates
- Voucher Match
- Reports and Inquiries
- Service Purchase Orders

Sales Order Management

- Sales Order Management Overview
- Customer Information
- Order Activity Rules
- Sales Order Entry
- Templates
- Base Pricing
- Preferences
- Preferences with Advanced Pricing
- Direct Ship Orders
- Credit Orders
- Backorders
- Item Cross Reference
- Quote Order Process
- Order Holds
- Transfer Orders
- Return Material Authorizations (RMAs)
- Print Messages
- Pick Slips
- Ship Confirmations
- Create Shipping Documents
- Invoices
- Sales Update
- Commissions
- Sales Order Inquiries

Advanced Pricing

- Advanced Pricing Overview
- Advanced Pricing Setup
- Base Pricing
- Complex Groups
- Price Adjustment Definition
- Price and Adjustment Detail Revisions
- Rounding Rules
- Free Goods
- Variable Price Adjustments
- Repricing
- Volume Incentive Adjustments
- Rebates
- Buying Structures
- Price Approval Process
- Accelerated Pricing Resolution Engine

Advanced Pricing – Contd.

- Price Matrix
- Pricing Workbench
- Customer Price List

Fulfillment

- Fulfillment Overview
- Setup and Activation
- Rule Setup
- Customer Billing Setup and Scoring
- Fulfillment Preferences
- Fulfillment Processing

Distribution Setup

- Distribution Setup Overview
- Branch Plant Constants
- System Constants
- Inventory AAls
- Order Activity Rules for Sales and Purchasing
- Document Type Maintenance
- Line Types
- Category Codes
- Sales Order Holds
- Item Master
- Item Branch Plant
- Item Location Setup
- Speed Location Maintenance
- Item Cross Reference
- Non-Stock Item Master

Inventory Management

- Inventory Management Overview
- Inventory Transactions
- Location Setup
- Cycle Count
- Item Cross Reference
- Lot Processing
- Segmented Items
- Cross Docking
- Kits
- Inventory ABC Analysis
- Dual Unit of Measure
- Print Messages
- Inventory Interoperability
- Perform Mass Updates
- Work Center
- Purge Inventory Records
- Inventory Inquiries
- Inventory Reports

Transportation

- Transportation Overview
- Activating Transportation Management
- Transportation Setup

Transportation – Contd.

- Set Up Transportation Rates
- Route Setup for Transportation
- Intermodal Shipments
- Vehicle Setup
- Loads and Load Building – Part 1
- Shipping Document Process
- Work with Shipments
- Transportation End of Day Processes
- Transportation Inquiries
- Inbound Transportation
- Pooled Shipments
- Shipment Tracking

Warehouse Management

- Warehouse Management Overview
- Activating Warehouse Management
- Create Locations
- Item Master/Item Branch
- Order Groups
- Container and Carton Codes
- Request Inclusion Rules
- Location Profiles
- Location Dimension
- Location Characteristics
- Capacity Definition by Item/Group
- Speed Group Maintenance
- Item Profile Revisions
- Unit of Measure Definition by Item/Group
- Preference Master
- Putaway Movement Rules
- Picking Movement Rules
- Replenishment Movement Rules
- Random Putaway Requirements
- Fixed Location Replenishment Setup
- Putaway Requests
- Process Putaway Requests
- Putaway Confirmation
- Picking Requests
- Process Pick Requests
- Pick Confirmation
- Ship Confirmation
- Bulk Pick Requests
- Cross Docking Workbench
- Fixed Location Replenishment Processing
- Manual Replenishment
- Process Replenishment Requests
- Confirm Replenishments
- Manual Planner
- Advanced and Technical Operations

Warehouse Management - Contd.

- Inquiries and Reports
- License Plating Setup
- License Plate Daily Processing
- Pick, Pack, and Ship Overview
- Cartonization and Carton Reorganization Overview
- UCC128 and ASN Processing Overview
- Shipment Pieces Overview
- Shipment Tracking Overview

Manufacturing

Shop Floor

- Shop Floor Control Overview
- Shop Floor Control Setup
- Work Order Processing
- Work Order Processing: Backflush and Super Backflush
- Work Order Processing: Lot Control and Serialized Work Orders
- Bill of Materials: Phantom Items
- Alternate Bills of Material and Routings
- Bill of Materials: Substitute Items
- Outside Operations
- Scheduling Inquiries
- Materials Inquiries Reports
- Process Operations
- Global Updates
- Mass Work Order Maintenance Demo
- Lean Manufacturing Overview
- Kanban Manufacturing Overview

Product Data Management

- Product Data Management Overview
- Distribution and Manufacturing AAls (DMAAls)
- Bills of Material
- Bills of Material: Substitute Items
- Bills of Material: Batch Bills
- Bills of Material: Percent Bills
- Bills of Material: Phantom Items
- Bills of Material: Inquiries
- Routing Instructions
- Routing Instructions: Master Routings
- Routing Inquiries
- Outside Operations
- Lead Times
- Reports

Product Data Management – Contd.

- Global Updates
- Process Manufacturing
- Engineering Overview

Configurator

- Configurator Overview
- Item Master and Item Branch Setup for Configurator
- Configurator Constants
- Configured Item Segments
- Cross Segment Editing Rules
- Configuring CSERs and Dynamic Processing
- Assembly Inclusion Rules (AIRs):
 - P and Q Rules
- AIRs: R Rules
- AIRs: X Rules
- AIRs: C Rules
- AIRs: H Rules
- Advanced AIRs: Tables
- Advanced AIRs: Smart Parts
- Advanced AIRs: External Field and Program
- Advanced AIRs: Other Transaction Types
- Advanced AIRs: Configured Components
- Configurator Sales Order Entry
- Other Configured Order Types
- Configurator Work Order Processing

Manufacturing Overviews

- Manufacturing Overview
- Project Manufacturing Overview
- Types of Manufacturing Overview
- Plant Manager's Dashboard Overview
- Lean Manufacturing Overview
- Product Data Management Overview
- Forecasting Overview
- Resource and Capacity Planning Overview
- MPS and MRP Overview
- Configurator Overview
- Shop Floor and Work Orders Overview
- Demand Flow Manufacturing Overview
- Quality Management Overview

Material Requirements Planning (MRP)

- MRP Overview
- Item Branch MRP Values Setup
- MRP System Setup
- Multi-Facility Planning Setup
- Program P3482/P3483 Processing Options Setup
- Submit MRP
- Planning Family Review Inquiry
- MRP Messages Inquiry
- Time Series Inquiry
- Pegging Inquiry
- Supply and Demand Inquiry
- MRP Reports

Capacity Requirements Planning (CRP)

- CRP Overview
- CRO System Setup
- Capacity Setup
- Resource Setup
- RRP Generation and Inquiries
- CRP Generation and Processing Options
- CRP Inquiries
- CRP Reports

Forecasting

- Forecasting Overview
- Basic Forecasting
- Planning Bill Forecast Setup
- Summary Forecasting Setup
- Summary Forecasting Generation and Force Changes
- Forecasting Consumption

Manufacturing Accounting (MA)/Product Costing (PC)

- MA Overview
- MA Part 1: Work Order Completion
- MA Part 2: Run and Review Manufacturing Accounting
- MA Part 3: Settings for Restating Costs
- PC Overview
- PC Part 1: B/P Constants, Work Centers, BOMs, and Routings
- PC Part 2: Create Standard Costs
- PC Part 3: Periodic Rollup of Standard Costs

Capital Asset Management (CAM): Equipment

- CAM Overview
- Equipment Overview
- Supplemental Data overview
- Coexistence with Fixed Assets
- Equipment Constants Setup
- Equipment Related AAls Setup
- Address Book Records
- Equipment Category Codes
- Equipment Master Information
- Equipment Inquiry
- Supplemental Data
- Equipment Specification Data

CAM: Work Orders

- CAM Work Orders Overview
- CAM Costing Overview
- Crew Scheduling Overview
- Work Order Document Types
- Work Order Activity Rules Setup
- Work Order Parts and Labor Setup
- Work Order Entry
- Work Order Materials Issues and Charges
- Work Order Labor Tracking Setup
- Work Order Labor Entry
- Work Order Labor Transactions
- Work Order Inventory AAls Setup
- Work Order Costing
- Crew Scheduling Setup
- Crew Scheduling

CAM: Preventative Maintenance

- Preventative Maintenance Overview
- Preventative Maintenance Schedule Setup
- Preventative Maintenance Generator
- Unscheduled Preventative Maintenance Work Orders
- Warranty Preventative Maintenance Work Orders
- Meter Readings Setup
- Meter Readings Entry
- Preventative Maintenance Schedule by Metered Units
- Rollover or Replace Meter

Quality Management

- Quality Management Overview
- Set Up Tests
- Set Up Specifications
- Set Up Preferences
- Enter Test Results
- Review and Disposition Results

Engineering Change Management

- Engineering Change Management Process Overview
- Engineering Change Management Setup
- Engineering Change Order (ECO) Process, Programs and Processing Options
- ECO Workbench
- Enter ECO, Routing Parts List and Related Items
- ECO Notification
- ECO Approval
- ECO Supplemental Data
- ECO Reports
- Engineering (BOM) Change Population

Material Production Scheduling (MPS)

- Material Production Scheduling (MPS) Overview
- MPS System Setup Overview
- MPS System Setup
- Multi-facility Setup for MPS and DRP
- Run MPS and Review Output Overview
- RUN MPS
- MPS Planning Family Review
- Process MPS Detail Messages
- MPS Time Series Inquiry

Distribution Requirements Planning (DRP)

- Distribution Requirements Planning (DRP) Overview
- DRP System Setup Overview
- DRP System Setup
- Run DRP and Review Output Overview
- Run DRP
- DRP Planning Family Review
- DRP Detail Messages Review
- DRP Time Series Inquiry

Manufacturing Enhancements - Release 22

- Copy Item Costs to Multiple Branch Plants
- Default Current Date when Copying BOM or Routing
- Requirements Planning Summary and Conso
- Visual BOM and Where Used Diagram

Manufacturing Enhancements - Release 23

- Kanban Status Override

Human Capital Management

Human Capital Management (HCM) Foundations

- Foundations Overview
- Implementation
- System Controls
- System Options
- Company Options
- Employee Setup: UDCs and Record Reservation
- Employee Setup: Category Codes and Future Data Reservations
- Employee History and Turnover
- Tax Information
- Corporate Tax IDs and Common Pay Master
- Employee Job Master
- Pay Types
- Deductions
- Benefits and Accruals
- Deduction, Benefit, and Accrual (DBA) General Accounting and Arrearage
- Additional DBA Information
- Tax Status for DBAs
- Employee Record Entry
- Auto Deposit and Supplemental Data
- DBA to Employee Association
- Employee Termination
- Employee Quick Hire

Time and Labor

- Time and Labor Overview
- Processing Options and Master Business Functions
- AAls: Debit Labor Billing and Equipment
- AAls: Debit Burden and Premium Distribution
- AAls: Credit Cash-in-Bank Account Distribution
- AAls: Credit Liability Distribution
- AAls: Debit/Credit Accruals Clearing
- AAls: Summarization Rules
- Time Entry by Individual
- Speed Time Entry
- Time Entry Import and Copy Paste

Benefits

- Benefits Overview
- Preparation is Key
- Building Blocks
- Putting it All Together
- Benefits Administration

Payroll

- Payroll Processing Overview
- Pay Cycle Setup
- Payroll IDs
- Execution Control Parameters
- Pre-Payroll
- Pro Forma Journal Entries
- Payment Printing
- Reports Only Processing
- Final Update
- Interim Check Entry
- Online Employee History Inquiry
- Company Options
- Tax Information for Employers

Technical

Configurable Network Computing (CNC) Overviews

- CNC Overview
- CNC 101
- Understanding JDE Server
Functions Overview
- Understanding Environments
and Pathcodes Overview
- Understanding Data Sources
Overview
- Understanding JDE Middleware
Overview
- Understanding OMW Overview
- Understanding Server Manager
Overview
